

DNT-09N

LDH (Layered Double Hydroxide)

Description

Halogen Scavenger, High Performance

Application

Heat Stabilizer for PVC (Heavy Metal Free System)

Characteristics

Suitable for all resins. High heat stability and Good weatherability.

High electrical insulation and High transparency due to excellent dispersion Characteristics

Typical Properties

Contents	Unit	Standard
Appearance	-	White Powder
Molar ratio MgO/Al ₂ O ₃	-	4.3 ± 0.2
Loss on Drying	%	Max 0.45
Particle size (mean)	μm	Max 5.0
Bulk Density	g/cc	0.3 ± 0.05
Heavy Metal contents	ppm	Max 50
